Bruce,

First of all, we are not planning on hosting Hot Import Nights this year. I have not been approached by anyone. I've conducted a business survey and received mixed results regarding that event (before my time.) I personally would prefer more wholesome events for the PBID.

Regarding the dumping, I am working on resolving that issue. In fact, I have a meeting tomorrow morning with another vendor. I really want to ensure that we have a clean and vibrant community and it will take me some time to work through this issue.

I appreciate your input and patience. Please let me know if you would like to set up a meeting in person to discuss your issues.

Best regards,

Lorena Parker

I have observed two instances and have been able to document one, and in both cases when I talked to the perpetrators they said the worked for Renascence. Since they both had key access to the basement of the Cabrillo Hotel, I find that explanation very believable. It appears that Eric is using San Pedro Clean to de

I personally observed at least one of the rolls of carpet in the foreground of the same shot come out of the back of a pickup truck driven by another of Eric's employees. The other shots are indicative of how this alley has looked over the last year due to a lack of dumpster capacity and furniture and mattress "magically" appear

Mr. Ecker,
I wish it were that simple,
We have seen an increase in illegal dumping in the alley, the problem we have is that when we lock the dumpster people break the locks at night, **not to mention the furniture that magically appears**. But, I don't need to tell you, your stuck looking at it as are we. Our plan is to install cameras and signage to try and catch the dumpers, until then, we do have employees checking and cleaning the alley. The bar does pay a recyclers to take away their bottles, under normal circumstances the can is more than adequate. as it is emptied three times a week. We want to get a handle on this as much as you do, it's not good for anyone.

Thank You,
Eric
